> MONTGOMERY, ALA June 11. Intil within a week past the Indians have ceased depredations, and have manifested no new signs of hostilities against the whites. On Saturday last they murdered several citizens in the neighborhood of Pea river, near the Pike and Barbour line, to whom they had for months previous expressed the greatest friendship, and had largely partaken of their charity. The names of the individuals thus inhumanly sacrificed, were Watson, Pugh and another not recollected. On hearing of the murders, the Governor instantly sent his express to the commanding officer at Tuskegee, and another to the Colonel of the Pike Militia, requiring them to afford the most speedy protection to that portion of our frontier. It is thought by some that the hostiles will attempt to reach Florida, on that route, by means of the swamps of Conecuh and Pea rivers. It behooves the inhabitants of that section to be on their guard. General Moore, with his regiment from the 4th Division, has more than probably reached Irwinton by this time;
